GE Engine Services - McAllen, L. P. certifies that the work specified in block 11/12 was carried out in accordance with EASA Part-145 and in respect to that work the component is considered ready for release to service under EASA Part-145 Approval Number: EASA.145.4467.

13a. Certifies the items identified above were manufactured in conformity to:		14a. <input checked="" type="checkbox"/> 14CFR 43.9 Return to Service <input checked="" type="checkbox"/> Other regulations specified in Block 12.	
<input type="checkbox"/> Approved design data and are in a condition for safe operation.		Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.	
<input type="checkbox"/> Non-approved design data specified in Block 12.		14b. Authorized Signature Signed by <i>Francisco Rangel</i>	14c. Approval/Certification No.: M9QR564N
13b. Authorized Signature:	13c. Approval/Authorization No.	14d. Name (Typed or Printed): Francisco Rangel	14e. Date: (dd/mm/yyyy): 22/AUG/2017
13d. Name (Typed or Printed):	13e. Date (dd/mm/yyyy):	User/Installer Responsibilities	

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her Airworthiness Authority accepts aircraft engine(s)/propeller(s)/article(s) from the Airworthiness Authority of the country specified in Block 1. Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
