**User/Installer Responsibilities**

The existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specifying his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified. The above do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued by the installer before the aircraft may be flown.
