

1. Approving National Aviation Authority/Country FAA/UNITED STATES		2. AUTHORIZED RELEASE CERTIFICATE FAA Form 8130-3, AIRWORTHINESS APPROVAL TAG		3. Form Tracking Number: ONBAA0001001001	
4. Organization Name and Address: Duncan Aviation/Lincoln Airport/Lincoln, NE 68524				5. Work Order/Contract/Invoice Number: ONBAA	
6. Item:	7. Description:	8. Part Number:	9. Eligibility:	10. Quantity:	11. Serial/Batch Number:
1	SERVO, PRIMARY	622-2733-001	JGVR194F N/A	1	2177
12. Status/Work: Repaired					

13. Remarks:
 Customer: PRECISION ACCESSORIES &
 Pretested - tach erratic and gear train noisy. Disassembled, cleaned and inspected. Found clutch bearing rough, shaft bearings rough, gearshaft worn, and tach and motor commutators have carbon buildup. Cleaned and polished tach and motor commutators IAW Duncan Aviation ASP-9901. Cleaned clutch plates. Cleaned and lubricated geartrain. Reassembled with new bearings, gearshaft, and function tested. Set torque to 9.4in-lbs for a KA 200, Aileron position per S.I.L. 8-75. Painted and final inspected per Collins CMM #523-0767823-00511A, Rev. 5, Dated 10/30/98, Temp. Rev. TR-012, Dated 4/3/07. REPAIRED.

Duncan Aviation certifies that the work specified in Blocks 12 and 13 was performed I.A.W. EASA Implementation Rule part 145 approval, and with respect to that work, the aircraft component is considered ready for release to service under EASA approval number 145.4392.

All EASA/FAA Airworthiness Directives are the responsibility of the installer.
 No current U.S. Airworthiness Directives apply.
 Technician: JEFF J. BROWN

User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.

Statements in blocks 14 and 19 do not constitute installations certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

* Installer must cross-check eligibility with applicable technical data.
