6. Item: <b>1</b>	7. Description: <b>RADIO ALTIMETER IND</b>	8. Part Number: <b>7000839-901</b>	9. Eligibility: * <b>N/A</b>	10. Quantity: <b>1</b>	11. Serial/Batch Number: <b>90033769</b>
				12. Status/Work: <b>OVER-HAULED</b>	

13. Remarks:

Customer: AVGROUP INC

Discrepancy: Overhaul.

Preliminary Findings: Bench checked unit. Found that the unit is serviceable.

Corrective Action: Opened unit. Disassembled. Inspected. Reassembled. Overhauled. Unit functional tested per Honeywell RA-315 maintenance manual 3rd revision dated November 30, 1998.

Duncan Aviation certifies that the work specified in Blocks 12 and 13 was performed I.A.W. EASA Implementation Rule part 145 approval, and with respect to that work, the aircraft component is considered ready for release to service under EASA approval number 145.4392.

All EASA/FAA Airworthiness Directives are the responsibility of the installer.

No current U.S. Airworthiness Directives apply.

Technician: TIM MICHAEL DIVIS

This document constitutes a signed copy of the work order.

Approval for return to service

14. Certifies the items identified above were manufactured in conformity to:

- ☐ Approved design data and are in a condition for safe operation.  
☐ Non-approved design data specified in Block 13.

19. ☒ 14 CFR 43.9 Return to Service ☒ Other regulations specified in Block 13

Certifies that unless otherwise specified in Block 13, the work identified in Block 12 and described in Block 13 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.

15. Authorized Signature:	16. Approval Authorization No.:	20. Authorized Signature: <i>Scott A. Samuelson</i>	21. Approval/Certificate No.: <b>JGVR194F</b>
17. Name (Type or Printed):	18. Date (m/d/y):	22. Name (Type or Printed): <b>SCOTT A. SAMUELSON</b>	23. Date (m/d/y): <b>Aug 08, 2007</b>

User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.

Statements in blocks 14 and 19 do not constitute installations certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
