User / Installer Responsibilities						
It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness.						
authority of the country specified in Block 1						
Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation experience accordance with the national regulations by the user/installer before the aircraft may be flown.						
			ata			
FAA Form 8130-3 (6-01) * Installer must cross-check eligibility with applicable technical data.
