

PART # 2-226  
COMPOUND FF200  
QUANTITY 1  
BATCH # 0040003310  
CURE DATE 2Q15  
INSPECTOR 4657  
PACKER B3832

To ensure consistency and superior quality, Parker Seal has manufactured these UHP products using an Ultra High Purity (UHP) Process. UHP means these parts are produced in a clean environment and shipped in this protective packaging to provide maximum performance in critical applications. For best results, it is recommended that they remain packaged until ready for installation. Opened parts cannot be considered for return.
