CERTIFICATE OF AIR WORTHINESS

aircraft parts only (if stamped and signed)

Signature for manager quality control department Fokker Aircraft B.V.

Issued under authority of airworthiness regulations of the department of Civil Aviation of the Netherlands, certificate recognition no. FR-103. Eligible for Fokker model F27 and/or F28.

It is hereby certified that this part is conforming to the U.S. aircraft type design, F.A.A. cert. no. F27-A817 or F28-A20EU and safe for installation on Fokker models F27 or F28, and in case this part is an engine or propeller has been subjected to a final operational check in accordance with the requirements issued by the original manufacturer.

*Items not manufactured by Fokker Aircraft B.V. are approved on the basis of "certificates of approval" issued by the supplier.
