User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the alroraft engine/propeler/anticle.
Where the user/installer performs work in accordance with the national regulations of an anworthness authority of figurent than the almost timess authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her arworthness authority of the country specified in Block 1.

Statements in Blocks 13a and 14a do not constitute installation confification. In all cases, arroraft maintenance records must contain an installation confification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
